-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3735

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

The declaration filed 3/25/04 includes language stating "material to the examination ...in accordance with 37 CFR 1.56(a)", instead of material to the patentability ... in accordance with 37 CFR 1.56.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-47 are rejected under 35 U.S.C. 102(b) as being anticipated by Boone et al (2002/0196141).

Boone et al discloses a device or "carestation" that is used to monitor a patient. The device, such as an incubator (44), includes many different sensors to sense many different parameters including at least one environmental sensor and at least two physiological sensors (column 7, line 10- column 8, line 20). The device also includes imputing patient information and diagnosis data and treatment data in order to provide therapy. All of this data is integrated onto one monitor or display (48' and 118) such

that data from multiple inputs or sensors is displayed all on one monitor in various combinations (column 18, lines 45-65).

4. Applicant's arguments filed 10/31/07 have been fully considered but they are not persuasive. Applicant argues that Boone et al discloses that the information is sent to a remote location where the information is accessible to a subscriber with some input recognition system and that there is no suggestion of an integrated carestation that is located proximate to a patient to directly care for the patient. However Boone et al teaches in the abstract as well as the passages referred to in the rejection above that the data is made available to subscribers OR authorized users on either a local computer display screen, As discussed above the display 48' and 118 are monitors for displaying the information at a "point of care" location, as can be seen in the figures such a monitor is attached to the incubator. With regard to claim 6, how the data is processed and displayed is dependent on the software within the processor, the computer system disclosed in Boone et al is clearly capable of performing the functions claimed and is capable of displaying information in any way the is desired.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John P. Lacyk whose telephone number is 571-272-4728. The examiner can normally be reached on Mon-Fri, 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chuck Marmor, II can be reached on 571-272-4730. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
